

# West Blackfoot: Transportation Improvement Projects

# PUBLIC OPEN HOUSE

MARCH 2021

**DATE: Wednesday, March 31    TIME: 4-6 p.m.**

**LOCATION: Blackfoot City Hall (157 N. Broadway)**

For those who would like to attend virtually, meeting materials will be available on the project webpage the day of the meeting. A Zoom link will also be published on the project webpage for virtual attendees to ask questions during the meeting. Visit [www.cityofblackfoot.org](http://www.cityofblackfoot.org) and scroll to the bottom of the homepage. The project page is featured in the "Community Spotlight."

*If not feeling well, the public is asked to please stay home and engage with the event online. If you choose to attend in person, we encourage participants to wear a mask and practice social distancing around anyone who does not live in their household.*

## HOW TO COMMENT

Attending the public open house is not a requirement for submitting a comment. Comments can also be submitted via:

**Phone:** (208) 739-3048

**Email:** [bk@langdongroupinc.com](mailto:bk@langdongroupinc.com)

**Regular Mail:** The Langdon Group  
275 South 5th Avenue, Ste. 220  
Pocatello, ID 83201

**Comments will be accepted through April 16, 2021.**

## WEST BLACKFOOT: PROJECT OVERVIEW

Two projects have been identified in west Blackfoot to improve safety and accommodate growth. The City of Blackfoot, the Local Highway Technical Assistance Council (LHTAC), and the Idaho Transportation Department (ITD) have partnered to develop these improvements to the West Bridge Street (Collins Siding Road) Bridge and State Highway 39/Hoff Road (SH 39), between Thomas Road (S 500 W) and Collins Siding, in an effort to increase safety, maximize efficiency, reduce cost, and provide the best options to the travelling public. The City has hired J-U-B ENGINEERS to assist with determining the best solutions for these improvements.
